ROLL DICE

Sometimes RNG can really screw you over, but that's true of any board game. If you have a passing interest in the Horus Heresy this will scratch your itch. It has lots of lore crunch in it. Unfortunately the roster, while numerous, is missing quite a few Primarchs that I don't think will ever be added. The Khan, The Lion, Alpharius/Omegon are missing. There are no White Scars people in it from what I could tell but there are a couple of Dark Angels and Alpha Legion characters in it, so at least there's that. If you're into talisman/traditional board games and 30k this is a must buy for sure. Hopeful for one last DLC pack to fill out the Primarch roster.. Fifty-three turns and not one dice roll over three for both mine and the AI Loyalist characters. For your sake please just stop this utter nonsense. You're taking the time now.
